SUSHI

Osamemori

“Osamemori,” a perfect fit for smaller-sized sushi!

POINT 1 Snug fit for smaller sushi. **Less pinching** between tray and lid!

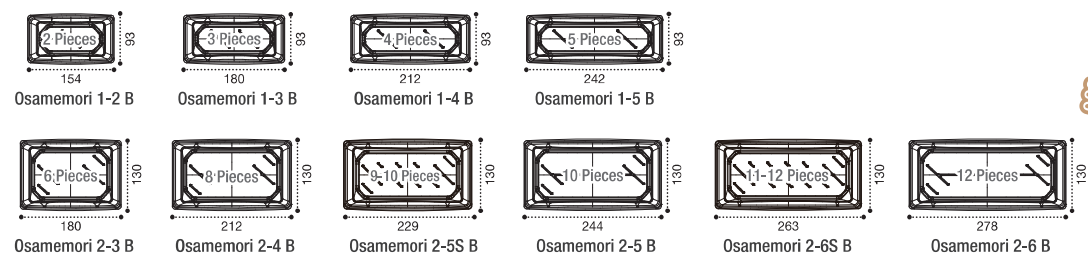

POINT 2 Lid snaps closed with light pressure for more efficient packing

*Biomass content is approximately 3%.

Toppings stay in place for a beautiful, edge-to-edge look—enhancing product value

Bio Kiwamori 3-4 B Kenbishi Kin
Dimensions • 211×173×25
Lid • Bio Kiwamori 3-4 OC

POINT 1

Keeps toppings in place for an edge-to-edge beautiful look

Bio Kiwamori 2-5 B Oomi Kin
Dimensions • 247×141×25
Lid • Bio Kiwamori 2-5 OC

Inner wall

Container's inner wall prevents rice from slipping, ensuring a beautiful presentation

POINT 2

Helps prevent pinching! Smoother, more efficient handling!

Bio Kiwamori 1-5 B Otowa Aka
Dimensions • 247×105×25
Lid • Bio Kiwamori 1-5 OC

Conventional Product

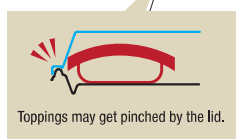

Lid rises from here.

Kiwamori

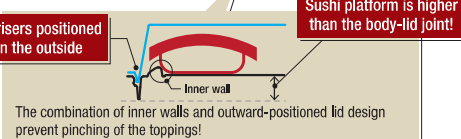

Lid rises from here.

Toppings may get pinched by the lid.

Lid risers positioned on the outside

Sushi platform is higher than the body-lid joint!

The combination of inner walls and outward-positioned lid design prevent pinching of the toppings!

POINT 3

Smart-fit design for quick handling

● Sample Patterns

Easy-to-close lid

SmartFit

Lid stays securely in place

Separate-style “high-grade” Hinged-Lid Container

Innovative Shape

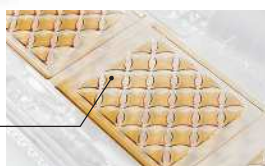

Special Flange Shape

Same appearance as separate type

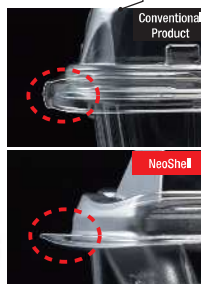

Uneven base shape

Suppresses leaking

“Zero Hinge” Shape

A hinged container with a separate-type look that reduces volume after use.

Zero hinge section detaches after used, reducing waste volume

Innovative “Position-Fixing Pattern”

Goukaori Sushi

Goukaori 2-5 B Kurojun Kin
Dimensions • 230×121×26
Lid • Goukaori 2-5 OC

*The lid only contains partially plant-based materials.

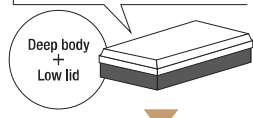

Goukaori 165 B Kinkaichimatsu
Dimensions • 165×165×26
Lid • Goukaori 165 OCL

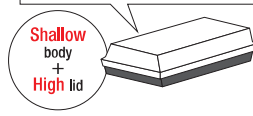

POINT 1 A new-style sushi box with a premium look

Nigiri sinks into the deeper base

The perfect depth to keep the nigiri from sinking.

Sample Patterns

Sample Shapes

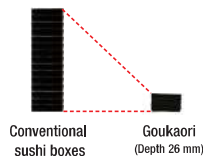

POINT 2 Environmentally friendly new-style sushi boxes

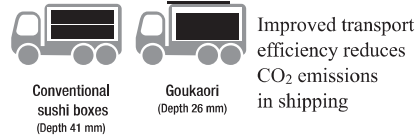

The lid made from material with 10% biomass content

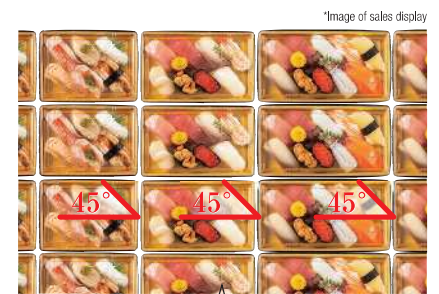

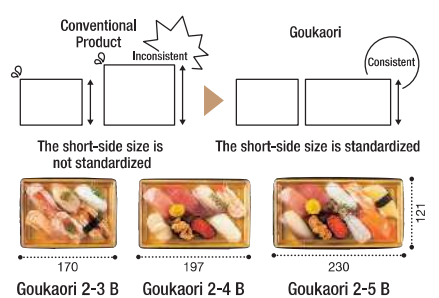

Low stacking saves space and improves transport efficiency

Use less space in the back room
*Compared to 10 containers per sleeve

POINT 3 Uniform short-side sizes ensure a beautiful display when SKUs are deployed

Enables uniform 45° filling angle.

BioPET/BioPS Miwakusushi

BioPS Miwakusushi 2-5 B Shoei Kin
Dimensions • 248×142×24
Lid • BioPET Miwakusushi 2-5 OC

Reduces sushi moisture loss by 75%

— Verified comparison of moisture loss —

Approx. 4/10 cc

Conventional Product
(PSP Outside-Fit Lid)

Approx. 1/10 cc

Miwakusushi
(BioPET SmartFit Lid)

After 7 hours

Conditions: Change in moisture content of 5 sheets of tissue paper soaked in approx. 10 cc of water measured over time in a chamber set at a constant 50°C.

Snap on easily
with one touch

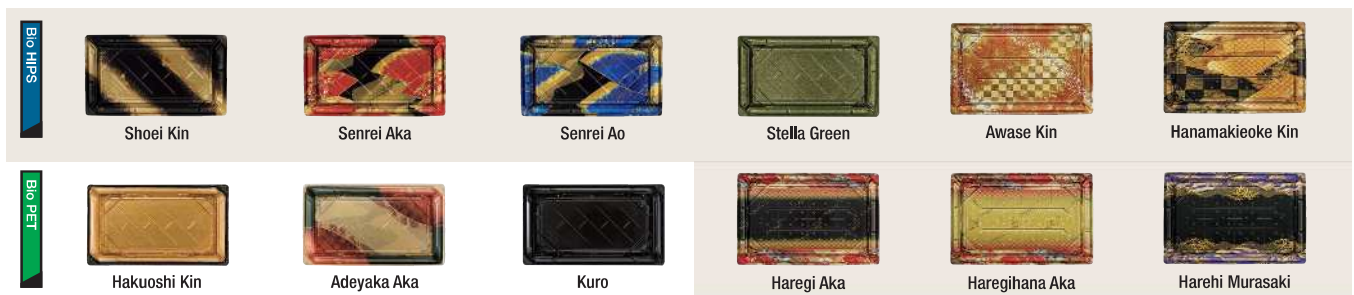

SmartFit

Lid stays on tight

Easy snap-on design that fits more securely than conventional inside-fittings.

Labeling is easy!

What's more, the Futo 4 size lid has sharp corner edges (molded rim), which enhances the sense of luxury!

POINT 1 The lid is easy to attach, and stays on tight!
Condition:
The average length of time required to secure the lids on ten packs was measured.

Conventional Product

Done!
Ten packs in
approx. **117 seconds**

Done!
Ten packs in
approx. **34 seconds**

POINT 2 Inner dimensions designed to fit roll size

Makes a perfect fit

Inner dimensions set to fit hosomaki size

POINT 1 Wider layout

Ordinary layout

40° layout on wide lateral tray makes toppings really stand out

Reference line grooves
Reference lines simplify wider layout

Customer Feedback

Up to now, we've been putting 10 pieces in 12-piece trays to create a sense of greater width, but a product with inner dimensions designed specifically for that would be even better!

Wasted Space

10 pieces in 12-piece size tray

Perfect Size

POINT 2

Wide flanges accentuate the sense of width.

Protrusions prevent sushi from tipping over

POINT 3

Prevent labels from adhering to other items.

No sticking

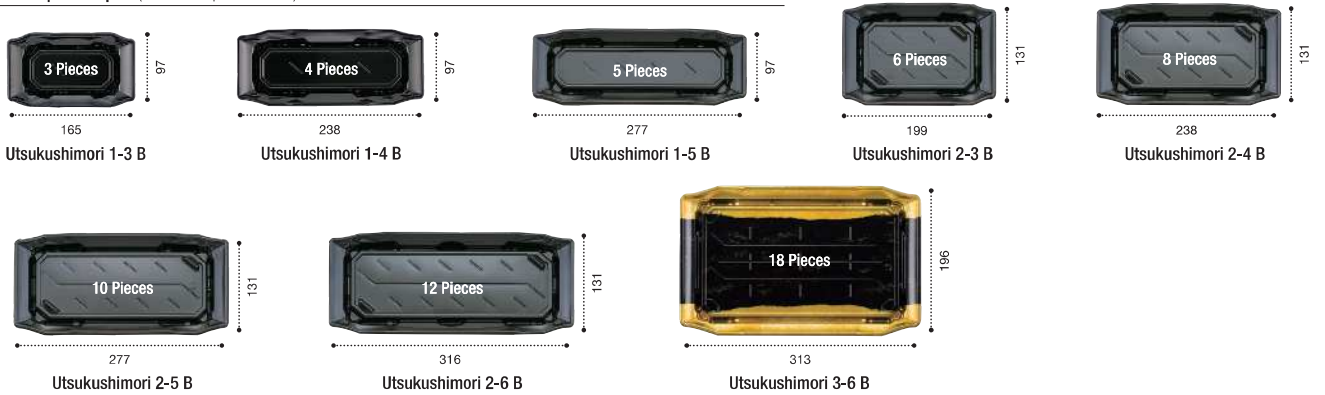

Labels won't adhere to other containers due to the stacked design with gaps

*Biomass content is approximately 3%.

Shunmori

New 2-5S B and 2-6S B sizes designed in response to rising fish prices

A 10-piece tray that still looks full even with 9 pieces

Shorter short-sides create a fuller, packed appearance

Fits either 10 pieces with larger toppings or 12 smaller nigiri

Shikisai

POINT
1

Consumer-friendly features

Tableware-inspired styling

Platter design suitable for both Japanese and Western dishes

Easy to pick up and open

Shikisai 2-5 B Hakukoushi Kin
Dimensions • 244×130×25
Lid • Bio Shikisai 2-5 OC

POINT
2

Designed for easy sushi arranging

45° angle lines and individual piece guides

Container with risers for added height, compatible with vendor labelers

Riser height set to a maximum of approximately 4 mm for use with vendor labelers

Shikisai 2-4 B Hakuougi Aka
Dimensions • 212×130×25
Lid • Bio Shikisai 2-4 OC

SASHIMI

Bio Hananowaku

Floral tray design looks gorgeous, perfect for multiple slices of sashimi

Bio Hananowaku 20-17 B Shinuchi-Gold
Dimensions • 204×174×27
Lid • Bio Hananowaku 20-17 OC

Bio Hananowaku 25-19 B Elegia-Green
Dimensions • 252×185×27
Lid • Bio Hananowaku 25-19 OC

POINT 1 Unique flower tray shape enhances the appeal of high-value, premium-quality products.

Its 3D cut design brings variety and charm to the display case.

The high lid is perfect for creating stunning 3D presentations!

Wider inner dimensions allow for impressive arrangements

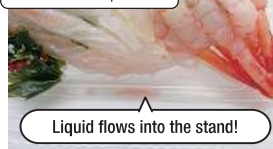

High risers further amplify the 3D effect!

POINT 3 Double drip stopper maintains fresh appearance

Preserves the luxurious appeal!

Conventional product

Liquid flows into the stand!

Hananowaku

Helps prevent flow into the stand!

With single stopper

With Double Stopper

POINT 2 The trim frame adds a touch of luxury to the product.

The brighter upper left captures the eye!

Elegia-Green

Glass-like transparency enhances freshness and sophistication!

Shinuchi-Gold

Designed for ultra-premium high-value products

Yuhaku-Silver

Gradation pattern highlights the featured item in the upper left corner!

Use different patterns to match the contents!

*The indicated number of sashimi servings is for reference only. It may vary depending on the plating arrangement.

*Biomass content is approximately 3%.

POINT 1 Both body and lid contain 10% bioplastics!
Bio-specs corroborate increased environmental awareness

Push! Lightweighting for the environment.

POINT 2 A “frame” that effectively contains the appropriate amount underscores the product value

POINT 3 Easy! Safe! Uses Smart-Fit!
Fitting designed to please workers and consumers
